

# INGREDIENTS DRY POWDER APPLICATOR REBUILD KITS

## PREVENTATIVE MAINTENANCE

A preventative maintenance program is essential for any processor to reduce unplanned down-time for product repairs. And, PPM Technologies understands the importance of providing tools to improve up-time performance.

Designed for quick and easy rebuild, our ingredient kits include all wear parts that are necessary to replace during the rebuild. This will provide peace of mind knowing that all necessary parts are on-hand.

## COST EFFECTIVE

PPM Technologies simplifies the process of rebuilding dry powder applicators by kitting all parts required. And, economically the rebuild kit is bundled to reduce the net cost of purchasing components individually.

## CONTACT US TO ORDER TODAY

\*\*Some components pictured are not included in kits. See below for actual kit contents.
