

ULTRA

VERSATILE PERFORMANCE

PPM Technologies created the ultimate conveyor design through combining innovative drive technology with many years of industry experience. This simple yet robust design provides the application versatility processors need today.

The base mounted design creates an indirect resonant motion increasing the product capacity. Whether simply screening product prior to packaging or converging product to feed a freezer, the Ultra provides the application flexibility you need.

SIMPLE MAINTENANCE

Driven by a pair of quiet, reliable eccentric drives the Ultra is designed to provide easy service. The drive system requires no gears, pulleys or belts and is sealed against dust and liquid. The simple design offers improved serviceability with quick removal and installation requiring no removal of covers, tensioning belts or other adjustments.

The PPM Technologies Ultra Conveyor will add value to your line by offering a custom solution for your specific application need.

TECHNOLOGIES

COMMON APPLICATIONS

- Cereals
- Confections
- Fruits & Vegetables
- Meat, Seafood & Poultry
- Snack Foods

SPECIFICATIONS

CONSTRUCTION:

12 gauge stainless steel

LENGTH:

6' to 20' (1,8m to 3,6m)

WIDTH:

- 18" (457mm)
- 21" (533mm)
- 24" (610mm)
- 30" (762mm)
- 36" (914mm)
- 42" (1066mm)

POWER:

- 230V/60Hz/Three Phase
- 460V/60Hz/Three Phase
- 575V/60Hz/Three Phase
- 380V/50Hz/Three Phase
- 415V/50Hz/Three Phase

OPTIONS:

- Aligning
- Dewatering
- Flared Infeed
- Peripheral Discharge
- Pneumatic Gates
- Proportional Gates
- Screening
