

ULTRA DIRECT

The PPM Technologies Ultra Direct conveyor provides a simple, economical solution for product handling needs. From simple transfer conveyors to more complex dewatering applications, the Ultra Direct can easily be designed to suit a variety of applications.

DURABLE, SANITARY DESIGN

The Ultra Direct conveyor has a simple, sanitary design virtually eliminating components to maintain and replace. Driven by a pair of quiet, reliable eccentric drives this conveyor is designed to provide easy service.

The drive system requires no gears, pulleys or belts and is sealed against dust and liquid. This simple design offers improved serviceability with quick removal and installation requiring no removal of covers, tensioning belts, or other adjustments.

VERSATILE DESIGN

With a variety of options, the Ultra Direct is easily customized to suit your application needs. A peripheral discharge can be added to provide a simple, reliable scale feed unit to feed vegetables or add dewatering screens to remove excess product moisture. The Ultra Direct can also easily handle head loads for hopper applications.

The Ultra Direct is capable of handling a wide range of products including fruits, vegetables and poultry reaching speeds up to 60fpm. The unit can easily be installed either suspension or floor mounted offering a simple and fast installation.

The PPM Technologies Ultra Direct conveyor will add value to your process line by providing a simple, economical solution for a variety of applications.

SUPERIOR FEATURES

- Maximum reliability with few parts to maintain
- Easy access for sanitation
- Versatile design with variety of options

SPECIFICATIONS

- Construction: 12 gauge stainless steel, washdown drive
- Length: Up to 12' (3,660mm)
- Width: Up to 48" (1,220mm)
- Power: 230V/60Hz/3 phase, 460V/60Hz/3 phase, 575V/60Hz/3 phase, 380V/50Hz/3 phase, 415V/50Hz/3 phase
- Options: Dewatering, flared infeed, hopper discharge, peripheral discharge, pneumatic gates, screening, spreading lanes
